Sovereign, local and municipal bonds are classified under the country in question. Bonds issued by private companies are classified under the country where the company has its headquarters. Holding are based in the trade date. Sell/buyback agreements have forward settlement. Negative holdings may therefore be reports without expressing the true financial exposure.

Sovereign, local and municipal bonds are classified under the country in question. Bonds issued by private companies are classified under the country where the company has its headquarters. Holding are based in the trade date. Sell/buyback agreements have forward settlement. Negative holdings may therefore be reports without expressing the true financial exposure.

Sovereign, local and municipal bonds are classified under the country in question. Bonds issued by private companies are classified under the country where the company has its headquarters. Holding are based in the trade date. Sell/buyback agreements have forward settlement. Negative holdings may therefore be reports without expressing the true financial exposure.
